Assignment No. 12

Create a table <u>employees</u> as below:

| +- | | - + - | | + | | - + - | | . + |
|----|-----|-------|--------|---|------------|-------|--------|-----|
| | eid | İ | name | | experience | İ | salary | |
| +- | | -+- | | + | | -+- | | + |
| | 101 | | Vijay | | 12 | | 56000 | |
| | 103 | | Rani | | 0 | | 14000 | |
| | 104 | | Ramesh | | 6 | | 45000 | |
| | 105 | | Anil | | 5 | | 34600 | |
| | 107 | | Akash | | 14 | | 67800 | |
| | 108 | | Priya | | 7 | | 60000 | |
| | | | _ | | | | | |

Create a <u>cursor</u> to copy the data from this table to another table named <u>emp</u> with contains eid, name and salary only. The salary copied should be like 56K, 14K, 45K 34K onwards. The names on employees copied should be in upper case only.
